

# A Book by Father Dennis

## **FREE AND HOLY WHERE YOU ARE:**

**The Daily Life of a Catholic** by Msgr. Dennis M. Regan

### ***Excerpts of Reviews:***

#### **A TERRIFIC, WELCOMING VOLUME**

Regan seeks to highlight what he sees as the more inviting aspects of Catholicism – which some readers may not expect—most prominently its flexibility and humanity....Readers who are familiar with the history of Catholic writings will be struck again and again in Regan’s compassionate and empathetic notes which would have been unrecognizable in Catholic thinkers of an earlier age....Many modern believers, especially young ones, will find a version of Catholicism in these pages that they can embrace.

#### **A MARVELOUS BOOK**

Regan’s book is an excellent corrective to a view of Christian morality which is life-denying. Actually the opposite is true: Christian morality calls us to a way of life that can lead to the most profound joy....“To be a co-creator with God (of a redeemed but unfinished world) is an exciting vocation....A first-rate scholar, Regan has the wonderful talent of writing clearly, but this does not make his views less challenging....Along with the seemingly countless insights that Regan makes in his book, what especially appeals to me is his emphasis on freedom and joy and his view of the Christian moral life as an adventure in love.

----Rev. Robert Lauder, Brooklyn TABLET, 11/27/19
